

Specialized Programs

Many times, our clients need specialized attention to create and deliver the kind of talk, presentation, panel, or other specific speaking opportunity. We stand ready to help in these unique situations to hone your message as an individual speaker or as a team.

Second, some opt to have a large segment of their organization, division or large team attend a seminar that lets them interact with the facilitator. For some this is the first time they experience in action, the fundamentals that make someone look and sound like they belong in front of the room.

Below are the four specialized programs we offer to help our clients:

- One Day Ignite Workshop -- For those who are just beginning their speaking and presenting responsibilities or who are in a time crunch
- One to One Coaching -- Usually Delivered in six 1.5 hour sessions over two months or just in time
- Team Coaching -- For a team that has a joint presentation coming up soon
- Half Day Interactive Speech Seminar for large groups
